ABOUT ME

In 1969, I was born in Tarsus. I received my degree in agriculture from Çukurova University in 1991. I was a research assistant at the Institute of Science and Technology at Çukurova University between 1994 and 2001. In 2005, I finished my doctoral degree in the Department of Biometrics and Genetics. Since 2001, I have been a researcher at Eastern Mediterranean Agricultural Research Institute ADANA. Since I'm a biometrician, I operate on many projects besides only caring for animals.
